## "Master Farmers" Honored At Friday Night Banquet

An event of special interest to this district took place Friday evening in the school auditorium, when a large number of neighbors and friends gathered for a banquet to honor the J. C. McCulloch family for their achievement of winning a Master Farmer Award for the province of Alberta.

This is the first time an award of this nature has been presented to a district farmer. Local farmers on previous occasions have entered the contest but never have been successful in being placed in the top category.

Jim, the father, and Arnold, the son, operate a large mixed farm in the Midway district. Grain, cattle, swine and sheep are produced on this fine farm.

The ladies of the Midway district catered to the banquet and it was gratifying to see about 300 neighbors and friends turn out to honor the McCullochs.

Representing the provincial government were: Mr. R. Putnam, deputy minister of agriculture; Mr. S. Graham, department of extension; Mr. Howard Fulcher, district agriculturist; Miss Helen Howard, home economist; Mayor H. Lynch-Staunton spoke for the town and Mr. Tom Morris acted as master of ceremonies.

Mr. Putnam paid high tribute to the outstanding achievement of the McCulloch family in being second among the winners (there were three master farm awards given in 1958).

The winning of a master farm award carries with it a beautifully engraved bronze plaque, plus a cheque for \$1000.

Mr. Putnam presented the plaque to Jim and the cheque to Mrs. McCulloch, although he did point out the cheque was made out to Mr. McCulloch.

It was interesting to note that there were three generations present from one side of the family, and four from the other side.

The Didsbury district and the whole of the M.D. of Mountain View, of which council Jim was a member of a few years back, join in offering congratulations and wish them many years of continued success.

## Set Date For Hail Vote

The Municipal Council of Mountain View have set the 6th of January as the voting day for "hail suppression" for the coming summer. This date was set by a request from the local Hail Suppression Association.

Due to a change in the Municipal Act, only one vote may be held in a calendar year, therefore, it was impossible to have this vote in December, as originally planned. The Municipal District of Mountain View, Knecht and Rock View are holding similar plebiscites on January 6th, 1959.

The Mountain View area has been divided into two plebiscite areas, but if both plebiscites are successful, one contract will cover both areas and will be charged with the same mill rate. It is expected that the mill rate will be about the same as in 1957.

Hail Suppression in any municipal district will become effective only with a two-thirds majority, and only if a sufficiently large area comes under contract.

### What Goes On Here? . . .

We understand that a meeting was held in Olds recently and the way we get it our northern suburb will be the site of an Old Folks' Home which had been proposed for the M.D. of Mountain View. We also have an unofficial report that the asking price for the site is \$7,000. We also have an unofficial report that the towns of Didsbury and Carstairs offered sites with no price tags on them. Being a little weak at times on financial deals it does seem through our mind that if you can get something for nothing, grab it. That \$7,000 we mentioned earlier, could buy a lotta necessary things for the proposed new home. With Didsbury in the centre, it seems to us that it's very poor planning to have the home placed at any other point. However, politicians, who must have been working overtime on this deal, are famous for putting things in the wrong place. But then, who are we to argue with the powers that be, they have the last word, whether they're right or wrong. Someday maybe we'll win another round, with government help.

### Still In Action . . .

Although the snow is plenty deep the golf course is still seeing plenty of action. It's not a case of shot-smiths using red golf balls, just a case of it being a playground for the younger set, with toboggans, skis, sleighs and what have you holding the spotlight. We would like to give a word of warning though — the course at times is cluttered up with wee boys and gals — make sure your headlights are beamed properly — let's not collide with them.

### And A Friendly Nod To . . .

The gentleman who has re-opened the theatre in town. We noticed a number of extra cars in town last weekend and have no doubt the trend will continue. Shows are scheduled at present for Friday and Saturday nights.

### FREIGHT INCREASES CRITICIZED

G. L. Harrold, chairman of the Board of Directors of the Alberta Wheat Pool, said he was shocked at the size of the increase in railway freight rates granted this week by the Board of Transport Commissioners. Because of the enormity, he has suggested that the federal government intervene until a closer look is taken at the entire freight rate structure.

Freight rates, he said, fall heavily on farm people who are in no position to absorb higher operating costs. Farm income has not kept pace with the rising Canadian economy and further freight costs could only aggravate the situation.

He drew attention to calculations of the Canadian Federation of Agriculture showing that farmers who make up 12.7 per cent of the nation's working force and receive only 8 per cent of the net income, would have to bear 36 per cent of the cost of the increase. It is estimated that the increase will cost \$57,000,000, making the farmers' share \$20,000,000. This is far too much, he said.

Mr. Harrold declared that the freight rate structure is already far out of balance with the West paying much more than its share of any increase. This is borne out by the fact that neither Ontario or Quebec bother to appear when the Board of Transport Commissioners meets to consider applications for increases.

Mr. Harrold expressed concern over the fact that the Board of Transport Commissioners, in granting the increase to meet wage demands, was in effect passing judgment on the westward drive. It was never intended that the board of Transport Commissioners should undertake such a function. In doing so it has set a dangerous precedent, declared Mr. Harrold.

Mr. Harrold rapped Commissioner Howard Chase for his statement on the Crow's Nest Pass Agreement. The Wheat Pool head said that low freight rates on grain moving into export are essential to prairie farmers and added that the C.P.R. has never proven that it is losing money on the export grain it hauls. Furthermore, the railway gained substantial benefits as a result of signing the Crow's Nest Pass Agreement which cannot be disregarded. The assets of land and mineral resources acquired have greatly increased in value over the years. The Alberta Wheat Pool emphatically reaffirms its stand in support of rates established under the agreement and will work ceaselessly to assure its continuance.

## Notes From D.A.

District Agriculturalist  
By HOWARD FULCHER

Farm manure is one of the most valuable products we have. Much money will be spent for commercial fertilizer every year, yet waste of manure is to be allowed to go on. Manure, a by-product of our livestock industry, when applied to the land, will return its value in better crop yields due to the increased fertility of the soil.

Manure is a perishable product, 50 per cent of the value can be lost in three months by improper handling. Losses occur by urine run-off by leaching and by fermentation; prevention of these is important.

Urine content of manure, pound for pound, has more fertilizing value than the feces; loss of this can best be prevented by ample bedding and tight gutters. Leaching losses are greatest when manure piles are open and exposed to soaking by rains, piles under eaves lose high amounts of valuable plant food due to leaching. Fermentation causes nitrogen to go off as a gas; this occurs most rapidly in dry loose piles.

To prevent fertility loss in manure, the use of plenty of bedding and hauling directly from barns to fields is the best method. When this cannot be done due to labor, field condition or weed seeds, build compact high perpendicular sided piles, have these piles kept moist; this will reduce losses to about 15 per cent.

Loose housing and deep litter programs tend to lessen manure losses because of no outside storage or urine run-off.

Manure is valuable, but the returns from it, either green or rotted, will be realized only when it is spread on the land.

**TRIM THOSE TREES:** From this time on during the next few months is the ideal time to trim your trees if they require it. Especially the new plantings of poplar should receive attention. These little trees always branch out into several trunks and if left to mature like that will grow up to be a bush rather than a symmetrical tree.

Select the best limb or central shoot as the trunk, and trim all the other shoots or branches off right down to the ground. The central trunk will then take over the functions of the main stem of the tree and stretch up surprisingly fast in the next year, and in the years ahead.

If you are interested only in growing a windbreak and want the trees to branch out right to the ground, then leave them without pruning and you will accomplish this end. Winter time is the best time to do necessary pruning on any trees, because at this time of year there is no sap moving in the trunk and branches.

A little extra attention given to your shelter belt or hedge at this time of year, when time is not at a premium, will result in a better looking, more beautiful windbreak.

### ONLY ALLOWED ONE . . .

Old Pete was an Indian working for a family on a Montana ranch, and in spite of his many years, he was eager to keep learning. He became interested in the typewriter which was used in the ranch office and decided to learn typing in his spare time.

Pete pecked away at the machine with determination and only asked one question. He wanted to know what the "X" sign was.

"That's an asterisk," he was told. Pete seemed satisfied and didn't wait to hear any further explanation of it.

Later on it was learned how well Pete had understood. He'd been asked to take a ride in the boss's small passenger plane, but when the boss went to the bunkhouse he found this note:

"Am riding the fences. Have decided not to go in the airplane. I have only one \*".

THE  
Homemaker

By HELEN BOWARD  
District Home Economist

Hello Friends:  
How many shopping days until  
Christmas? It's a constant remind-  
er that the busy season is almost  
here. Fruit cake is one feature of  
the celebration of the Christmas  
season that can be prepared well  
ahead of time and is better for it.  
For full flavor fruit cake must  
have time to ripen. Here is the  
light fruit cake recipe I promised  
last week.

Light Fruit Cake  
Crushed Pineapple)  
1 cup butter  
2 cups sugar  
6 eggs  
2 1/4 cups all-purpose flour  
1/2 tsp. salt  
4 tsp. baking powder  
1 1/4 cups crushed pineapple  
(not drained)  
1 lb. shredded coconut  
1/2 lb. chopped citron peel  
1/2 lb. blanched almonds  
1/2 lb. halved candied cherries  
1 tsp. vanilla  
1 tsp. almond extract  
1/4 cup brandy or fruit juice  
2 lbs. sultana raisins  
Cream butter and sugar well.  
Add eggs one at a time beating  
after each addition. Beat 1 1/4 cups  
of the flour with baking powder  
and salt. Combine fruits and nuts  
and mix well with remaining flour.  
Beat in shredded fruit alternately  
with crushed pineapple to butter mix-  
ture. Combine well. Bake in two  
deep pans 8"x8" lined with a double  
thickness of oiled brown paper, at  
275 deg. F. for three hours. Makes  
eight pounds.

For That Professional Look  
Allow baked cakes to stand in  
pans until almost cold. Remove  
cake from pans and let stand on  
cake cooler until following day;  
keep cakes covered with a clean  
towel. Wrap cold cakes in at least  
two thicknesses of waxed paper;  
store in tin box or other tightly  
covered container. Or wrap cakes  
in a cloth moistened with wine or  
brandy, or pour about 1/4 cup of  
wine or brandy over cake. Then  
wrap cake in waxed paper and  
place in a tight container; moisten  
the cloth or pour the liquor over  
the cake two or three times during  
aging period.  
To decorate ripened cakes, ar-  
range nuts and candied fruits in  
the design desired. Cover cake and  
decorations with glaze. Allow glaze  
to dry a few hours before packing  
or serving cakes. Fruit cakes should  
be ripened several weeks before  
slicing or serving.

Clear Glaze  
For Light Dark Fruit Cakes  
Mix 1 cup granulated sugar, 1/2  
cup water, and 1/3 cup light corn  
syrup in a saucepan, and heat  
slowly until sugar is dissolved. Boil  
until a small amount dropped in  
cold water forms a slightly firm  
ball, or until 242 deg. F. Brush  
glaze over cake and decorate.

Almond Paste  
1 lb. shelled almonds  
4 egg yolks  
1/2 tsp. bitter almond flavoring  
1 tsp. rose water  
1 lb. icing sugar  
Blanch almonds and put through  
a meat chopper, using the nut  
grinder; work to a paste. Add un-  
beaten yolks of eggs, flavoring, and  
gradually the sugar. The mixture  
should be as stiff as a dough; more  
sugar may be required. Dredge a  
pastry board with icing sugar, toss  
mixture on it and roll or pat out  
to desired thickness; cut in shape.  
Moisten cake with cold water or  
egg white, press icing upon it and  
let stand 24 hours before covering  
with other icing.

## M.V.B.C. NEWS

(From Our Own Correspondent)

This week work is being done on the Student Centre again. A number of men volunteered to assist in putting in the new ceiling of the centre so that it can be more readily heated. The help given by these friends from time to time is greatly appreciated and we feel they are making a splendid contribution in this way.

Rev. Bacon has taken all the chapels at the college while here. His messages have been most helpful to the Bible students. Friends have been kind in entertaining him, and he expressed his thanks for many kindnesses shown him while he was in the community. He left for his home in Elkhart, Indiana, Wednesday night after the last meeting in the United Missionary church.

Mr. Peter Waldin and family entertained Mr. Bacon in their home last Saturday and took him to Banff for part of the day.

President Taylor and family, along with Rev. Bacon, were dinner guests at the Lynn Hunsperger home on Sunday. Rev. and Mrs. Witt, and Mrs. Florence Finlay, were guests in the Wilmer Reid home the same day.

Mr. and Mrs. Ira Stauffer entertained all the married students at dinner on Sunday; the occasion being Clarence Stauffer's birthday. The young people greatly enjoyed the occasion and were most vocal in their appreciation.

The extra boiler in the heating unit of the college is making central heating more satisfactory now. Steam can be had within a short time, and we believe it will keep all the buildings in more even heat than formerly.

This coming weekend several Gospel Service League teams will be taking services in different churches of the conference. One team will go as far as Redwater, another to Edmonton, and a third to Oshawa.

## LIGHT YOUR WAY ...

... WITH BIBLE STUDY

The Holy Ghost calls people through the Gospel, and through the Gospel He makes them Christians. "In Christ Jesus I have begotten you through the Gospel." Wherever this Gospel is in use, there will be found people who have saving faith in Jesus.

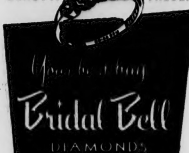

All believers, take together, regardless of race, nationality, color or station, form the one indivisible, universal Church of Christ, which He calls His Bride, His Temple, His City, His Flock, His Body.

This is the true church of God, known on earth as the Kingdom of Grace, known in heaven as the Kingdom of Glory. Sometimes it is also spoken of, here on earth, as the Church Militant; and in heaven, as the Church Triumphant.

We said this Church is invisible to us. We can not look into a man's heart to see whether he has faith or not. On any given Sunday morning, you can not say: "The three persons in the first pew have saving faith, but the fourth person is a hypocrite." At times, however, a person may through his life, words, and deeds clearly indicate that he has no true saving faith. However, what we do know, God does. "The foundation of God standeth sure, having this seal, The Lord knoweth them that are His."

Friend, you may be able to fool man into believing that you are something that you really are not; but you can not pull the wool over God's eyes. Can you honestly say: "I believe in the holy Christian Church - I believe that Jesus Christ is my Lord and Savior." If you do, then give testimony of this, your faith, by serving your Lord, by coming to His House, by using His Word faithfully, by loving your neighbor as yourself.

BEAUTY! VALUE!

## WEDDINGS

JACKSON — CHRISTENSEN

A double-ring marriage ceremony uniting Irene Ulla, eldest daughter of Mr. and Mrs. H. Christensen, and James Ralph Jackson, only son of Mr. and Mrs. Ralph Jackson, was performed Saturday, November 28th by Rev. K. Wood, in the Olds United Church. The bride entered the church on the arm of her father, to the strains of the Wedding March, played by Mrs. Turple.

Bridesmaids were her sister, Rita, her cousin, Hazel Fittfield, and sister of the groom, Miss Marian Jackson. Little Laurel Stromsnoe, cousin of the bride, was flower girl. The groom was attended by Howard Christensen, brother of the bride; Arthur Jackson and Glen Kershaw, cousins of the groom, were ushers.

Two beautiful solos, "The Wedding Prayer" and "Because", were sung by Mrs. Phyllis Leawick of Calgary, accompanied by Mrs. Turple at the organ.

The bride was lovely in a white floor-length gown of net over taffeta, embroidered with sequins. Her veil was held in place by a tiara and she carried a bouquet of red sweetheart roses. Her jewelry consisted of a pearl necklace, a gift of the groom, and her great-grandmother's gold bracelet, which she had received on her wedding day.

The bridesmaids and flower girl wore blue net over taffeta waltz length gowns and carried bouquets of yellow carnations. Bronze and yellow tuxedos banked the altar.

The bride's mother wore a powder blue dress with pink accessories; the groom's mother was attired in a navy gown, with white accessories.

Following the ceremony a reception for 140 guests was held in the Elks hall with Mr. Walter Herbert as master of ceremonies.

In the evening the young couple were hosted at a well attended wedding dance in Westdale hall. Following a honeymoon to the U.S. the happy couple will take up residence in the Westdale-Harmattan area.

## Rugby W.I. To See Films On Mental Health

The November meeting of the Rugby W.I. was held at the home of the president, Mrs. Allen Vipond, with fourteen members and five visitors being present.

A donation was made to Dr. Hitchmanova of the Unitarian Service Committee of Canada; and a foot stool will be purchased for the Didsbury Hospital. Rugby W.I. is invited to Westcott to see the film on cancer in the Westcott School. Mr. W. Miller of the Mental Health Society will show films on Mental Health in the Rugby Hall on Monday night December 1. Pie and coffee will be sold, proceeds to go toward the Mental Health program.

Mrs. Harry Richardson, Constituency Convener, was present and brought us up to date on W.I. affairs and reminded us to support the Blood Donor Clinic on the 14th. Racial discrimination was the citizenship topic chosen by Mrs. P. Hoesgood. For the citizenship project members were asked to bring discarded notions to the next meeting which will be sent to Japan where they are renewed or made into other articles. A widow's earnings from 10 pounds of such material amount to thirty-five dollars.

Please bring your gifts for the Mental Hospital to the next meeting also remember your gift to your secret sister. The next regular meeting will be held at the home of Mrs. Glen Ray.

which will be judged.**Guest Editorial**Children and older people are in-  
evitable pawns to traffic, according  
to the Canadian Highway Safety  
Conference. Children through in-  
nocence, older people through in-  
firmities, will always turn up in  
traffic's path, crossing streets and  
highways, emerging suddenly from  
between parked vehicles and turn-  
ing up in so many unsuspected  
ways.These pedestrians, claims the  
Conference, are the motorist's re-  
sponsibility. Drivers of vehicles  
with experience, anger, terror and  
frustration because of them, but  
the fact remains that these men-  
aces will unfailingly exist and it  
is the chore of the driver to save  
their lives and preserve them from  
injury and suffering.CHSC hurried to agree that there  
are other types of pedestrians not  
so blameless. These people seem  
to defy motorists to run them  
down. The death toll on Canada's  
streets and roads is swollen yearly  
because some drivers take that  
drive, either unintentionally or  
directly. Pedestrians who stand  
firmly on their rights as human be-  
ings as they step into moving traf-
